DIVISION 10 - SPECIALTIES

VISUAL DISPLAY SURFACES

Chalkboards and Markerboards: Porcelain-on-steel writing surface.
Tackboards: Natural cork.

SIGNAGE

The UCD Campus has a campus sign program. A copy of these guidelines may be obtained from the University's Representative. The guidelines:
1. Provide graphic standards for a campus sign program.
2. Provide category classification for all sign types in the program.
3. Assist in identifying which sign type is appropriate to use.
4. Assist in the application and placement of signs.

LABORATORY ROOM SIGNAGE

Laboratory faucets served by industrial water shall be labeled “Industrial Water – Do Not Drink”. Signs to be of panel type construction with dimensions of 1 by 4-inch minimum. Panel color shall be dark with lettering of high contrast. Coordinate with campus sign program.

EMERGENCY EVACUATION SIGN

All campus buildings over one story high shall have building evacuation signs posted on every floor. The signs shall be posted at all stairway and elevator landings and immediately inside all public entrances to the building (California Code of Regulations, Title 19). The evacuation plan sign is noted in the Campus Sign Program as type Interior 4.G.

The insert for the holder shall conform to the following criteria to comply with state regulations:
1. Show floor plan for the level on which it is placed. Should be easy to see immediately by someone entering that floor of the building.
2. Place signs no more than 4 feet above finished floor.
3. Make sign’s lettering at least 3/16 inch high in a sans-serif font. The words shall be in sharp contrast to the background and easy to read.
4. Include emergency procedure information for the physically disabled.
5. Indicate the locations of exits and fire alarm pull stations.
6. Describe what the fire alarm sounds and looks like (audible and visual warning devices).
7. List the fire department emergency telephone number.
8. If there are elevators on the floor, state they are not to be used during emergencies.
9. Other pertinent information may be added to the sign, such as location of fire extinguishers, hazardous material spill kits or emergency preparedness equipment.
10. Use the following symbols for the evacuation signs:

- You Are Here
- Fire Extinguisher
- Elevator
- Fire Alarm
- Waiting Area for Disabled Persons

Provide signs at doors for "FIRE RISER INSIDE" and "FACP INSIDE." Signs shall be 10" x 14" with a red border and red lettering on white background.

ADDRESS FOR BUILDINGS
Address numbers for buildings shall be provided for all new and existing buildings in such a position as to be plainly visible and legible from the street or road fronting the property. If a building has a monument sign and the sign is visible from the street, post numbers on the sign. If no monument sign, post numbers near the main entrance that faces the street. Confirm the number and placement with the University's Representative and UC Davis Fire Department.

TOILET COMPARTMENTS 10 21 13
Floor-mounted, overhead braced type, through-color polymer plastic.

TOILET ACCESSORIES 10 28 13
The following categories of restroom accessories are those for which the University requires standardization from project to project.

12. Roll Hand Towel Dispenser: Fort James, Mark II Kimberly-Clark, Model #2000, #5293, or equal. No substitutes.

23. Hand Soap Dispenser - surface mount: Waxie Bobrick Model 385830; black 1250ml foam. No substitutes. B-2111 (stainless steel finish) or B-5050 (plastic, not for antibacterial soaps), or equal.

34. Hand Soap Dispenser - in counter model: Waxie top-filling: Bobrick Model #385670; #B-8226, or equal: push 1500ml foam. No substitutes.

56. Toilet Paper Dispenser - for high use toilet rooms: Georgia-Pacific Model #56744. Compact quad; coreless. No substitutes. Tork Model #247540, 2 roll dispenser, or equal.

67. Sanitary Napkin Dispenser: Bobrick Model #B-282 surface mount feminine napkin/tampon vendor; stainless steel; $0.50 coin mechanism; 11-7/8 inches by 25-7/8 inches by 6-1/2 inches, or equal.

78. Mirrors: Mirrors shall be 1/4" thickness with solid backing. Frames shall be 1/2 inch by 1/2 inch by 1/2 inch heavy duty stainless steel angle, with all corners mitered and welded, Bobrick Series B-165, or equal, sizes as indicated. Tilt mirrors shall be stainless steel with tilt built into frame, Bobrick Model B-293, or equal, sizes as indicated.

Towel disposal units are not required in any new or remodel work. These will be freestanding, provided by the University.

**FIRE EXTINGUISHERS**

10 lb. ABC, Amerex 441B, 4A-80BC (10 pound) or equal (no known equal) in semi-recessed or recessed cabinets.
