Partial road closure on Hutchison Drive will begin in order to facilitate installation of first section of heating hot water piping - the system which will overtime be replacing traditional campus steam heating to be more energy efficient. During the week of August 5th construction fencing will be installed which will create one lane traffic on Hutchison Drive in front of the transit hub. Flagmen will be in place and Unitrans is adjusting their bus routing as necessary.

Silo delivery access will be adjusted during this time as noted.

Hours outside of construction will allow 2-way traffic.
